“Summer of Changsha” was shot in Changsha, capital city of Hunan province. This is a place with a mystic air. The summer of Changsha city is scorching. The film was shot from the last ten days of June 2018 to the beginning of August 2018, which is the hottest period of Changsha. The shooting went very smoothly though, and the weather had been cooperative.

Local people in Changsha are very hospitable. Many of them gave us generous help during the shooting. We are touched by their passion for films. I always believe that good films have three layers of expressions. The first one is to tell a good story. The second one is to go deeper into the story to show the sophistication of human nature. The third one is to explore the connection between religions and souls of human behind human nature. When I first read the script of this film, I was drawn by its subtle exploration into the relationship between the characters’ hearts and their souls. I purchased the script without hesitation.

The name of the original script was a simple word --- “Heat”. I changed its name to the current one “LIU YU TIAN” which reflects the true meaning of the story. Since the film was shot in the scorching summer of Changsha and the story took place also in the heat of Changsha in summer, my wife, also my business partner gave it a poetic name “Summer of Changsha”.

The film’s Chinese name shown at the beginning of the film and on the posters is hand written by director ZU Feng with his favorite Chinese writing brush.

SUMMER OF CHANGSHA
The second leading male character was played by CHEN Minghao, one of the best stage play actors in China. He has twenty years of acting experiences and has started acting in some films and TV series in recent years.

The carefree girl Ting-Ting was played by ZHANG Qianru. She graduated from Beijing Film Academy. She worked with the director in a TV series before this film.

We’d also like to draw your attention to the guest actress Ms. LIU Tianchi, wife of director ZU Feng. She played the character “Ms. QIN”, sister of main male character’s ex girlfriend. In the film, she and the main male character A Bin had an excellent confrontation show.

SUMMER OF CHANGSHA
Sinners’ conscience will take revenge for those innocent victims. The reason of sinners’ sufferings is that they still have a conscience...

In this film we try to walk into the hidden corners deep in the hearts of the main characters who had been tortured by their sins. We try to discuss how people faced themselves after doing something wrong and how they were going to continue their lives.

This is not just a story in China. It could happen anywhere in the world. If you could not let the pains go, maybe you would have to learn to face them, get along with them and even make peace with them.

Is there another world besides the one we live in? Do the souls still exist after people die? If the existence of another world could give people hope to live, why wouldn’t they believe it? Maybe it is not necessary to figure out the past or the future. Like some other characters in the film, just live in the moment...
